Centuria Wellness Club

We are pleased to announce that ILC has been appointed to perform pre-opening spa consultancy work on a wellness club on the upper levels of a novel facility, Centuria Medical Makati, in the Philippines.

The interior construction of the building is progressing towards completion. The Club will offer an alfresco outdoor dining area, multi-functional room, an outstanding gymnasium and treatment suites. The Centuria Medical Makati, a project of Century Properties, is a one-stop techno-medical centre for outpatient surgical procedures and it will house medical professionals and wellness practitioners to provide first class treatments and healing environment for their patients. It features numerous modern procedures and supreme recovery suites targeting customers not only the local community but also the rapidly-growing medical tourism industry.

W Shanghai

In the first quarter of 2016, Shanghai, one of the top five global financial centres, will launch a highly modernized hotel that holds over 383 guest rooms - W Shanghai - at the Bund looking over the spectacular views of the Huangpu River. ILC will supervise the conceptual design, schematic design, all construction stages and programme design for the leisure amenities of the renowned hotel.

The hotel will feature its signature AWAY® Spa, WET® Pool and FIT® fitness centre. The spa is aimed to follow the standards set by the AWAY® spa and deliver a unique and tranquil experience to guests.

Changsha Luxury Collection

For the Changsha Luxury Collection project, ILC has been overseeing the pre-opening stages of its spa and fitness area, including treatment rooms, foot reflexology areas, salon, gymnasium, multi-functional rooms and swimming pool; total area of 3214 m².

We have also expanded our borders by providing a complete set of consultancy work on the swimming pool on this project. The scope of work includes concept development and design, technical design development and spa equipment tendering.

The hotel is expecting to open during the last quarter of 2015.

Pashmina Waterfront, Bengaluru

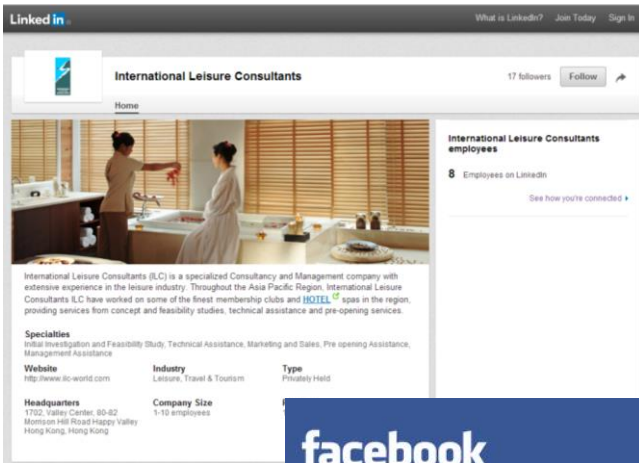

Bangalore is one of the largest cities in India and a new 16 acres residential project, Pashmina Waterfront is firing up. The project is situated in the fast developing part of Bangalore, where its connectivity will be significantly improved due to the establishment of the Bangalore Metro Rail. Phase I of the project consists of four 38 floored residential towers with a total of 600 housing units, expected to be completed by the end of the year 2015. ILC is engaged to provide consultancy services for the Main Club House, Spa and salon areas of the

project. The initial 25,000 sq. ft Main Club house holds recreational facilities including the gymnasium, lap pool and activities rooms. A larger clubhouse of 45,000 sq. ft. is being planned for the second phase of the development.
